Flames of Light on Divine Way

Golden age, second age of the World, third age and iron age weave the net of creation.

By method of transformation people fulfil supra-mentally. Never feel Devotional satisfaction without psycho development. The cogitation of external Universe and innumerable waves of sounds can not deliver pleasure absolutely. The presence of fine tuning no longer very much. Therefore march towards the ethereal vibration. Men can not perceive eternal joy, in spite of amends, in gloomy screen of vanity. Discussions never help to please inner exist, by some reason, seldom enjoy for a while but vanish it within very short period, it is sure.

According to distinct of approbation music, orchestra, gossip learnings hear, that is all right but temporary. Outer agitation disappeared in immense creation, consisting of Supreme sound only. It is very sweet to learn song, by distinct fable concert too feel delightful. So tune of jingling, waves of vibration gives joy indeed but forward march in wing of limitless ether.

The word of SUPREME being circulate over the Globes mixing in Infinite. Roaring of clouds, sound of storms, flames of thunder existing a little vanished ever. Cogitation can not observe in Physical eyes. Merely waves of sounds nice pleasant to learn. Sometimes external tune of jingle, giving a little joy in inner part then move in holiness of Supremacy. Fine gladness of brandish can not stick longer in container of inner spirit. So buzzing of ecstasy disappeared in boundless atmosphere.

External happiness look forward in so many Globes. Hence touching in soul for a while can not be permanent. Grand spirit covered with vanity, so that happy mood less adhere. Just a short contact advance forward in free waves. In human body soul conspicuous in perennial. Therefore living in nice vessel of human function. If some times exist, more habituate to move in free environment. Nay emotional at all. Innumerable times ascend and descend very slowly in worldly Physique. There is no alteration in it. Scarcely obstacles occur on the way of uplift and frequent movements. If hindrance arise link with lovely Supreme cross over.

In mild way moving countless moments in Supramental Land, as if inner soul upward in perennial

mood, similarly no alteration found even on downwards. Thereby variegated achievement of creation, spirit move independently in body. Just reaching on descend link, intend to live in his fine receiver.

Open container please. Sweet fragrance of energy fling about in her limit line. With unequal spill odour of Supremacy manifested. Ye, showing one grand Lotus developed in the vessel. So petals are gathering, sweetness by bubbling of beautiful laugh. Unparallel complexion in it. Not only that, unrivalled technicolour adhered in the petals like rainbow in the lap of cloud. Name of this one, mental Lotus. Buds are stream in smile since having no origin. It has no opportunity of grown dim. So vessels fill up reposing of flower.

Soul take rest with rejoice on the heart lotus. Just willing for intermission detain somewhere but by the dynamic attraction of Highest Being ascends leaving the repose. Thereby lifting up and down since limitless period. Nay cessation within, till human body will exist, no end of inner movements focus. Since eternity presence, holy soul resorting the Physique play of achievements. Therefore proceed without rest, Lotus bed of container wait for forthcoming desire.

Afferent Divine lighted with the colour of Petals. The fine receiver full of reveal. Lotus without soul kept aside with dishevelled. Wait earnestly being touchless. So roaming in inner body enjoy very much. The formation of the human structure with countless nerves, pulses and blood. In way, one splendid moving chariot. Lotus bed fixed for soul in the holy and nice body; very near to the vessel form a boundary behind some screens. Any way coverings are nothing but coating of foggy-vanity.

From the beginning of creation screen of deception also formed in Psychic Globe. The black coverings of compassion surrounded, in spite of full position the soul in Physique. It is very difficult to disconnect the illusive curtain since moment immemorial. So coverings of illusion must have to stay in structure chariot. Just to leaving sweet dwelling of Lotus bed soul roam without strain. One holy goodness to rove about inner part constantly in search for FORCE of undivided existence. Name of the different feigning of Energy Divine LORD, Supreme existence, powerful Deity etc. There are no companion of soul in Lotus bed. Therefore celestial consciousness protected with compassion.

Super Divine live in holy being out of the surroundings of clothing. In body of mental world His Supreme light reflects. So nice inexhaustible manifestation ! Flames of light extraordinary vanish in Supremacy on dangling constantly. So far victor focus or blaze nothing but elegance of Infinite existence. Onwards premetive age creation of variegated achievement move on sheltering in the body. The Principal associate soul of entire inseperable fragment. Till position in structure dwell in lotus bed. To fulfil Diversion same excellence divided in two parts. Soul in fragment that's why, can not realize fine development. Supreme busy with pleasure sanctity to close up the entry of feelings.

In the structure, to keep own existence accomplishing by coating of tenderness. The manifestation of Super FORCE concealed with fascination. Therefore stem of Lotus tie up deeply with sweet part of Infinite. Soul be unmindful yet lifting and down constantly with attractive surroundings. Hence take rest to circle in fine flower bed. Therefore the human chariot wait animately, just for moving of soul. If always dwell in receiver must be relaxed. So blood drop will be thickened. Pulse and nerves will be turned in languid,

Blood—on the way, being at a standstill. Tiring the body acceptance perverted grace. Therefore mobility depends upon continual movement of the soul. As aloft and fall with current waves, nerve system will be active. So that very little occasion to take relax in lotus bed. Just to keep strong and healthier, the Physique incessantly progress in Supramental Globe. So movements, Joyfulness, satisfaction entire reliance upon activeness of inner exist.

Restless departure continue on inner FORCE since endless having no origin. He enjoys satisfy just turn into bed flower but not perceive without Companion. Holy coach cradle in slow speed off and on. Petals joyful by mild attraction on forthcoming expectation. The soul can not realize first of all the soft cradle swing wherefrom. Beautiful flowers agitated with dense contact, so far as, spare alone in delicate coach. So unsteadiness remained on. Thereby moving circulated in the structure. Roam why, know not, just for departure occurrence stirring up a liquid of exist inner but negation come to an end of fulfilment.

The incomplete existence even in flower bed, in spite of moving feel unsatisfy although lifting stage

after stages but no peace at all observed. Sure perceive of fragment, so that unnerved for Super partner. Where is the lifelong co-friend? Hereby feelings of close intimacy awaken infrangible Supremacy. Hence sweet link embraced with stem, therefore swing in nice beddings by achievement Divine. Soul as an individual horripilated! Suddenly perceiving with dense touch feels, he is not alone now. Beside self omnipresence of Super FORCE in Supramental world. Where is the VICTOR—POWER can't search out at all. Just from container to mental Globe, so many chapters move with untraced manner. Nothing at all found even. Hence no feelings by circling of Psychical Globes.

By sheltering in Physical temple innumerable moments fall and lifting. So timing of cessation, bedding in receiver, feel want of some Supernatural Power. He doesn't wish to dwell alone in pitiful flowerings; perceive of inner soul awaken LOVELY LORD behind of dynamic screen. Integral can not get full satisfaction to keep separate volume. Existence in dream, entirely divided for delightful effective by variegated accomplished of grand creation. As LORD Supreme Infinite, one part of His production transformed in soul,

Structure miraculously absorpt in lasting ever FORCE, presenting not mentionable like vesicle. Supreme LORD ascend in inner part of Devotee to fulfil His new Focus according to need of yoke. The creation of human body not enough for Him. By moving inner look form a nice receiver, the feigning soul one of the Divine part of existence SELF' appointed as sentinel for innumerable chapters. The Coating of appearances surrounded very nearby to the sacred container. Fine LORD stirring Supremacy with overwhelm, so on the other side of boundary in everlasting achievement. Without resort in the body, holy tricks keeps incomplete. Therefore Part of thyself changed as soul covering with illusive form a splendid container. How nice Super games decorate a Lotus with an unique attitude of manifestation ! Vanish never this flower. Just make a grand coach arrange for dwell of soul in peace. Therefore the root of Lotus tie up with thyself. Hence age after ages having no origin, games for particle of dust. No end even of that ! One remarkable cradle link of unexpected billions hang in super play. Therefore lamentable affection of deep feelings for awaken of soul but can't realize, whose achievement felt shivering !

On cradle of diversion must appear for self realization. Therefore undivided entity feel never fancy. No end of Super swing ! Linking tie with the flower so that cradling in soft Lotus Petals. Hence inner soul enjoy grand inspiration in search of new dearest companion. So that moving constantly, in spite of feeling of any other alteration even !

Always lifting and fall in media of every drops of blood, some times crossed forward within the nerves but finding nearest none. Thereby ceaseless motion continue on to keep animate chariot structure. On the path somewhere perceive for surroundings Just near to container.

Getting hindrance move in mental Globe. So awaken ownself by gentle touching of entire entity. Rosy Petals return in receiver by roaming Psychological Land. In one caves of heart, realizing too much want of Partner in ceaseness but can't find out at all. Confused thought ! What extraordinary one ! though want of FORCE surrounded over. Therefore sense of vanity never felt any time. Seems, one unseen coating hem in. By tender affection of lovely LORD transform of soul; Divine conscious of waves touch also in entity of volume so far,

Effect for evolution, so rising of thought aware, search out of heartiest one ! Hereinafter roaming for so many layer by layers confused here, surrounding about media of blood. Hereby inspired some Super Force presence different side of mental curtain. He has no contrivance, hunt out of grand one just crossing over the special line. Particularly this time no remember ever beautiful dwell of lotus coach. For sorrow of subtraction can not concentrate thyself. So on the movement unsteadiness bring shakiness. With a charion call, soul wait in a fix place. Thereby slowness manifest in body of current flow with blood. Hence nerves also wrinkled about.

Anxiety impressed on face. For the unhappiness of soul tremulousness focus in outlook. Facial symptoms manifest restlessness, so perturbed patience which out of control. If people observe, must mark somewhere mystery occurred. Wise men will forecast 'Concentrated'. Justified in sensible eyes, disturbance created on free movement of inner beings. What one misunderstandings happened that is beyond contemplation. Adviseable to be treated under the Physician thereby his unsteadiness can be controlled peacefully,

Ordinary calibre think for some mental cause head cracked. Advice so many for self-satisfaction to apply cold remedy in brain. None can diagnose the cause of unsteadiness of body. Delirium increased continued. So people thought for confusion. Declared mad even ! How awful ! Where—in the curtain of vanity of inner part tried to move but He got no imagination at all.

Wavering focus in out look, that is not of Physical. The screen of diversion for soul try to disconnect in mental land although eagerness reflect in face. There is nothing to do of body. People seems manifesting of gradual development. So human body travelling as willingly. In way speak on own whims. That is not at all, Physique lie on like inactive stone. He hasn't self entity. Like dead condition, not move even push nay talk too. Indeed structure chariot show same. Thus figure looks like a brick or stick.

Soul as entity in body, manifest activeness in out look. If in mental land inner FORCE start easily then face must shows normal. In which no restlessness expressable. Examined by, external health shows strong and healthy. What happening in and outlook, it is nothing but all clear evolution of soul. All the locations of Psychic land churning, not yet

find out LORD Lovely, near the outline of Compassion, although inner exist wait for deep earnestness

Now not intend to return even lotus bed. Constant advance forward to his intigral entity. There is no satisfaction at all. Shiverings awaken till be fulfilled so can't get pleasure. There is no method of stepping cross the illusive line. Painful existance can not realize the mystery of vanity. Comprehension was this free movements all over the inner part but on the link, look forward special jet black coating. Therefore no exit the covering at all. On the other hand, nothing FORCE to cross over the factor.

Ardent increased in sequence. Being tired fall in tender coach but feels no joy. In variegated achievement of Power enjoyed nice affectionate touch whether no satisfaction within. So that constant feeling of sorrow that is for absence, grand petals also seems undesired. Regarding Supremacy till form no impression. Merely realize soft shivering of flower so perceive further FORCE for one endurance.

Still felt no necessary by inspiring link with the dearest part of entity. Therefore innumerable dangle of Light being enlightened transformed from

the same Supremacy. In spite no end of that excellent glow. So many technicolours ! that is beyond calculation. Just shape points in colour extent; spreading increase of slow progress. So fine range of beam effulgence. It is too many centuries passed in own whims

Sorrow of absence grow on. Hence distraught tune of soul can't reach to play habitation. The feature of undivided exist detain carelessly in flames of glow. Time is very great factor, therefore impossible to fulfil. What strange diversion ! He—who creator of the Physique, by forming Container in inner part, appoint the soul as guard to look in ; living behind the curtain of vanity observed in funny sport. How nice satisfaction He gets in it can not realize at all in human sake. Himself created with the naked illusive even carry existence by enjoying, doesn't keep permanently. Therefore He couldn't hesitate destruct the beautiful creation, forming terrific annihilation thunder-storm.

The coverings of attraction also one special contribution of Divine Self. Until factorise of time can not thoroughfare at all. In spite creation of thyself can't transgress the system. Therefore He also would have to wait for capital moment. **HIMSELF**

had to detain for fine formation ; excellent period now focus, tune of new one bring into being rung up. Hence await for tendency the particular time preferable, torn up Self's deed march forward to fulfil on the way of concentration for the sacred steps.

Soul tried so on, no sound reach to the Supreme. He fold up deeply towards engrossed in Supramental play of holy entity. Besides fulfilment of everlasting games, whenever wish doesn't apply FORCE. By transformation till full inner focus, time can not be fruitful. On the way of advance step feeling of tender touch for VICTOR-LORD, link with the tie of lotus stem. Only dense eagerness can help yet forward march for internal development. Just crossing the curtain of vanity for concentration once must be rung up with tune of grand completion.

Even for satisfaction require evident of density. End nothing arise in partial pleasure. There is no chance divulging of Super joy without it. By evolution of Supramental gratification enjoyment sure be feigning in Supremacy.

With surrender complete performance of expansion possible. There will be no appetite for desire.

Thereby omitting any kinds of demands must have to relinquishment specially in the particular way of flames on Supreme link. In which tune of jingle form. Soul must be awaken in concentrate and happy mood in the lovely environment. Self condensed will be turned into cradle of lotus coach. With the fine tie of love fragrance could felt in Great VICTOR. Hence by shivering the container holy entity sure to be alert integrally in new conscious of Picture. With the pure media of diversion apply sweet tenderly lens. There is nothing vacillation observed even movements in mental world.

Although circling in untrimmed way drawing near to the illusive screen without POWER back to the receiver in listlessly. Besides ownself inface FORCE all told make empty. So avarice the question of knew, turn in smaller just couldn't recognise himself. Actually reflects stage after stages of Psychic chapter but no more looked disquiet less relaxation so far.

As slice of straw in the current water float which in no dishevelled. By force of strong waves move cradle on unacquainted path. So current keep in particular places or sunken it at the bottom of depth. This type of offerings no oscillate of the soul. Thereby advancement of magnetic way to the lap of

Mother Divine, therein no found any kind of agitation. In which structure yield complete indifferent reflects shows in and out look. As ordinary sight feel in search of some one lookin.

Confused of outlook not for Physique. Structure can not understand at all why unparallel diversion going on ? Therefore no Power can follow, he has nothing thyself. Whatsoever doing all will-force of charioteer. The soul floated in blood drops with the basis of surrender. As there is no worth for expression, strength of slice to be forceful waves, hereby thinking of apply for the energy absolutely plinthless to LORD as receiver and fragment in the body.

Without getting return sound in spite of knocking very near to the curtain dexterity of the soul swum in dangle way. How long have to stay in this link no surity at all. Either condense or non-concentration not a bit anxiety will be failed. Total surrender should complete. So transformation in Supremacy wouldn't be perceive in partial yield.

Since age long origin covered by self' part for observe glowy achievements. Infinite one—Mother Divine being divided amusing for everlasting period. So that part for thyself with the nectar contact of

Lotus stem awaken temptation hereby visit from concealment.

Want of sweet touch of the energy vigilant for super action. So with the tie of pain tuning of ardent elevate. By watching the sorrow of soul VICTOR Supreme smile. What awful tricks ! Self feeling trouble on the other hand marking the sadness of the world.

Thought of having no origin, media of evolution, awaken the appeal of grand concentration. The farness of subtraction arise only for illusive screen. Hereby distrust of people, unpleasantness, feelings of insultations all strike for presence of much infatuation. If could remove dirty rubbish favourable situation will be occurred on the direction of devotion. That's why deceive from Supremacy find disorderly.

In any way can not be peaceful. So somewhere misunderstandings happened. Actually it is not fermentation of the Physique. Whatsoever presenting all from inner exist. The effect of agitation for outlook horripilated. Therefore bewildered perceive as motor car can't start in own strength. Hence got no self Power at all if charioteer drive then wheeling. As for example table, chair any

where may be kept no unsteadiness found. Just like inactive so that no alteration at all.

People push then advance. Body also similar like a steady vehicle absolutely activeless. As inner part roam in mental Globe therefore current blood keeps the body fresh and stronger. Whatever happening internally that is shadow of same external reflects.

Seems the Physical machinery exhausted. So fall on Lotus coach pain of separation feel too much but no method can invent for fine peace. Just to swim forward in supramental current must percieve Divine joy. Any utensils to the people kept aside as smaller movement from any natural disturbances in Sun or rainfall according to will-FORCE men automatically take in good place. Similarly inner exist ought to surrender totally.

From down stair of Psychic level on the link of uplift, look forward to Supramental Globe reached at ease. No stoppage to higher current. Neither fears of thinking in everbeautiful fragment entity therefore soul lying in the same phenomenon. Know not—marching where? No asking even whither to go? Just merely enjoying pleasure on bow down totally.

As Divine manifestation occurs to ready formation thereby protection also bearing the same. The beauty of creation existing in every point of atomic view. Therefore to save it some regulations observed hence no alteration done by VICTOR. By His swing of diversion touching Petal 'Lotus' first shivering awaken to evernice inner exist. So that engaging with the dust tricks mild affection of stem having joyous expressive to finer soul.

With earnest cries found vanity land but can't cross over. Therefore slow knocking not reach to HIM. So tricky games move on since having no origin. For full devotion of inner exist pity lens come unto from the upper mental Ground. Hereby Supreme Power transform in one structure not only that Physique of birth once may not be possible to be developed. So generation after ages by evolution help to make up inner parts so far.

So many people being tired from sufferings already disgusted. That's why do not acknowledge the Omnipresence of Almighty even they can not rely upon the feigning. Their angle of sight review if LORD is so Great Supreme then why not His manifestation observe? Neither dominant in their

curse days nor destruct the demonic enemies ! People can not understand for the black line of curtain. Screen thickened so that expression of the soul progress slowly. Just want of manifestation unsteadiness increased into unbearable. As no concentration with the Supremacy untrust and misfortune peep in.

Almighty's focus never feel externally. For the sufferings of mankind apparent not always responsible. According to Peoples' category measures of pain till clear up Supreme in creation too observed alterations. So that Super Creator also wait for factorise the special moment. Whatever perceive serious in sight of men according to His dust play without it nothing realizeable. Question of faith and unfaith doesn't come any occurrence of VICTOR. It is remains absolutely confined in coverings of vanity.

According to favourable time arise fruitful agitation form in achievement of Infinite. Although slow step jingle of tune express intimation the golden welcome of Superfine LORD. Only due to surrender Complete Consciousness of HIM raised assignation. Now confused nothing of inner part. There fore all thoughts of any kind took Himself. Where

totally gave up their lies no anxiety. Devoted fully in the Universe of Boundless hereby got no fickleness. Now Chapter of sweet Contemplation will be started on. In spite of long times knocking never got resound, on the definite occasion for the need of VICTOR approaching to cross the black line.

Never wish to keep far undivided part in the subtraction of pain. Devoted so finely not a bit wavering to look at. Therefore careless sweet remembrance of Lotus Petal too forgot even. Hence nice feature flooded over the endless horizon. Now Super LORD with cradle raised up in full attempt of concentration. Thereby beautiful part of self finely sacrificed that is out of steadiness. So on the event of surrender the holy seat of Mother Divine tremble it is sure true.

Until cross the screen soul won't be able to advance forward. By link of tricks Vanity Land also under prison so that black line too cradle. Thereby Gloomy curtain shock by unknown attraction. Therefore by depth of embrace, making roar and torn up the obstruct line. In order of varnishing between cloud thunder strike reflect the mental sky yet jingle occurred similarly in the definite time of crossing. So burst with very powerful sound presence a little vanish ever. How amazing !

With violent sound force of storm blown in blood current of the Physique. By agitation of scattered waves sense return of soul. Look forward—steady in Supramental world. So blending marked no unsteadiness ! By whom unknown attraction in the current become fixed. Enjoy—beautiful at first sight. So evernice entity of mental Globe observing lovely light in every stages feel astonish. In human structure never observed like this. Hence dangle of light Divine never shaken. Who enlightened flames of light ? Inner exist covered in dense gloom. Therefore the first twinkle of super light still shaking not broken thenceforth nay gazing VICTOR-LORD. HE too magically forming cradle of flames indicated the Primary chapter of decent absorbtion.

Sometimes spend with grand attachment. By tenderly touch cut up devotion. As torn up the curtain receiver also expressd. That too reflect extraordinary technicolours. Although this focus nothing but refraction of Glowly thyself. The container finest possible so that lotus Petal expanded. By magnetic attraction flower charmed hereby expecting the surity of tender contact of expressing joy. So long days vacant soft coach ! much more period forgot the residence. So by throwing back light of dazzle dwelling in lotus observed very

lovely complexion.

By spending induction looking all Parts of the Physique filled up in vertex. There no sign of Vanity at all; only media of beautiful apex lovely. VICTOR stood in Lotus Petal of container hereby sweet smile circulate. Hence nice impression of attachment can be developed. Therefore possess full of flames Divine Thyself from innumerable crest exiting then vanish in self' entity. So esoteric at first super sight dived into fragment presence. Thence by miraculous dynamic force Supreme mixed up in close to His part in everbeautiful soul.

Now inner living totally relinquished in Higher Supremacy. In the holy heart of Mother Divine contacting of small Power feel unspeakable joy. Absolutely transformed in fine moment hereby VICTOR too enjoyed satisfaction to be combined in self.' No full condense which deduct otherself. In the glorious visit every locations of the mental Globes occurred steady. Therefore shaken with complete favour of nice pleasing.

So sweet meeting never happened previously at all. Overwhelmed in delight. Any undesire moment to cut up link with Infinite. Hence awaken in first glance love intoxication. Therefore perceive always

to dive in decent Excellency. It is sure, very beautiful wherein extraordinary fragrance of current over.

Divided entity concentrated filled up in ONE hence touching of Jingle sunk in fond cradle. Just occurring of pleasure Divine control the Vigour of flatulence. Merely observe in mild waves so that whole structure looks joyous in peace. In the Supramental Globes with complete absorption do encounter between Physical and mental sight. Therefore contact of strength mark with very peaceful eyes and Lotus of the same fascinated. So always keep in finishing thought of dazzling. Sure find in outlook, internal facing start correctly but view not externally as permanent with the caves of heart.

Flash of beam light in Lotus of Physical eyes. Flow up in glow not only lustreing vision face too reflects deep rosy. Shows glimmering even from every point of fur of the body so that Glossy. Therefore thought of trembling, loveliness focus in human structure. Now outlook and in full of joy that's why blowing stream of Peace hence no feeling of sorrow at all. Till it will subtract no pleasure but concentration in entire is the only way of complete favour.

Absorption permanent so meeting super turn to be vanished in everlasting form. Bow down wind circulating fragrance. With maddening grandeur very lonely and quiet environment exist. In the Physique where full devotion occurred testing purpose others' hand bring close to the nose of devotee perceive breathless material.

Seems even occurred death. Shows external look in fixed way. On the period of deep devotion eyes not open marking very hard shutting Physical same open inner eyes. The beauty of everlasting original view overcome media of it. The fine achievement of variegated creation soul was engaged for guard of honour the body. Having knowledge of entire Divine soul create coating of compassion changed into separate part as self'. Same to all pervading Supreme spirit divided in two blending the body thereby covered with dust play.

Sometimes such a condition of Physique arise in full mortification as no feelings would have, if other one carry even. That happens in Supramental Globe. Therefore mistaken to fall in lower stage from Psychic link. Till soul detouch from Infinite Conscious not return in the body. Incidents like this day after days passed but no sensation looked

at. Hence jingle of tune in entire penance so that event of first contact unwilling to descend on.

He got no perceiving of self. So joyous that out of dream. More over got no restlessness of pre-concentration. Therefore kept aside in the holy silence and peace bed of endless era. In which FORCE mixed up and obtaining gladness thus never fall alone. ONE can not far off different as finely engaged with unraptured surely.

On the descending mood many stages cross over. The celestial Globe and bed Lotus become very steady in slow progress. Now Supreme return to sensation of the soul. By miraculous influence of Power Divine awaken ex-conscious shake of the sacred container. So appeared to courtship of ever nice spirit. Find only return again to dangle of restrainer. Therefore feelings of aware in Physique hence structure move. Thereby understanding-gone up from dream Land. Although nothing of the body whatever all from inner part.

In this circumstance waves of thought flowing upwards. Any way can't walk fastly, swim only in unspeakable spirit. Hence active concentration of mental Globe refract cradle in facial symptom. reddish Glow vanished like thunder glimmering. No

once, innumerable moments dangling in outlook. Thereby formation of the body supports extraordinarily and glorious devotion of the inner reign which works in Psychic land. That's why perceive inactive to aloft.

Before heavy shower black clouds scattering after thicken in the blue sky. The courtship of pour downfall what we look in western horizon. By chasing between itself possessing dark reddish hereinafter roar vigorously hereby shake the ground. Hence thickness fall thus shiver of lighting all these scenes whatever we mark in external eyes resolutely. So expression of some special **STRENGTH** in flash awfully shaken the earth. Peoples' call it crash of thunder clap. Seems burst like king Indra. We know furious action of it. Within a moment like meteor flames of light-fire burnt into ashes the trees and building etc. If gleam on man no escape from the death.

As compactness of cloud, curtain also being dense black thicker most. By applying **FORCE** mental land shiver. So deep Psychic sound regularly going on but all can not feeling sweetness in the same time. Say-people in the world so far once must have to be similar. Just to obstruct in pride

of fire kept with sufferings in division of hell and in haze of vanity. Therefore the external performance what can be done no fulfilment will be possible therein. Therefore commencement of out world affairs never bring development.

People showing execution it is nothing but useless topics which bearing the same. In way no speciality perceived in upper link. Mind can only clarify the mental stages. By gradual expansion refract the image on the heart. Enjoy only new inspiration hence sorrow and peace, wisdom and ignorance, happiness and miseries whatever thinking men to day all these creation of internal Globe Mankind speak in illusion every thing of same calibre to take place from out side.

Although surroundings lying in the Globe mental phenomenal emanation looked external universe only. Since having no origin inner part merely refutation of vanity. Human being aware of undertaking misconception. There are no end once of it. Same one deceit variously in the net of buggaries in spite of he doesn't learn bitter lessons. Knowing yet like day light repeatedly identical blunder done and burning in grief of poison. Persons understand must be deceived and cheated realising it very well

welcome so many misfortunes. Therefore behind of coating compassed over. So that no way of hoot out using whip too. Neither material articles will be helpful to drive by knocking.

Since long age in whirlpool men not wake up glance. By applying force eternal soul alone can not break the link. So on realizing the situation of development nothing but use of thunderbolt power done by VICTOR. Hereby wisdom obtain in full concentration. Therefore naturally ignorance, sorrow, endless sufferings accumulated in coverings of compassion. So that disturbing element on the way of devotional link that is grandeur function of the same. Hence happiness are very temporary level of Physical sight just like a smaller flames of light momentary then exhausted in tiredness.

Till entire completion no markable satisfaction will be seemed. What we done all diving delusion. That is the only way to cut up those hankerings. No question of splendid action would be felt. Henceforth always stay in full of devotional pleasure. Suppose joyous none like himself. So consisting of that no fancy of Royal can be arisen.

The extreme measures of duet meeting awaken by a reverie of grand shining. Although not the

same of lap in cloud. That is nothing but visioni
flash. So nice and warm which can not be expres
sable, in way regular dim flames circulate in men
tal sky. Therefore twinkles of Super light bac
throw the waves like play hereby enlightened too
So inner part focusing a beautiful chapter.

Starting of section in adorational link dangle
with a lamp of gleam. As confused the people in
darken sky earnesting-roar after rain fall must b
happened. That's why candling momentary focu
vanish in endless gloom. Till cloudy profound mus
have to be shown in reverish calamities.

Slice of fleeting substance form condensed ama
zing electricity. Thereby slowly circulate ray as tw
flint of stones dazzle in reddish and mixed up in
proper way. In day time it brighter focus more of
the other hand that will be shown in gloomy night
too. So existence of flares not much linger bu
extraordinary feigning between the special contac
what expansion manifested in very mild process.

Light with very small drop exhibited spread i
on gradual evident. As rising Sun found first of al
in fixed one point of floating stage so refract calmly
During the setting period also in western sky obser
ved similar type. Such as one fine gold finger man

in the evening twilight thus wait in little flying stipulation. Therefore within the moment disappeared in the endless horizon.

A suitable while of shadow and light just situation of going down Sun finger mark will dress up whom excellent forehead? So on departure crossing the dark, ray of East by expansion of heated flapping on wings bow down to the universal nature. The golden period of rising and setting possess in technicolour way vanished up in limitless Globe. Therefore on worshipping method divided entity of visit for grand development hereby reflect in equivalent flash of lighting. By tender contact exit through the pore of the skin of body like candling with link of visionic land so far.

The notable chapter of nectar contact startled with sacred joy hence reflect itself in the root of hair. All on a sudden fur become steady and straight. So each and every point shows nice lighting. Therefore cradle of trembling mix up all flames create a round and vast gleam. Since the period of dedication never exhibits in Physical eyes. Why so—between melodious of concentration among the human entity thereby become curled up. What beautiful lovetiness occurs all depends upon remarkable candling of Supramental world.

Various colours of blaze yet indicates like rainbow in the lap of cloud. Sometimes forming circle similar as yellow ball just termieric and reddish. Thereby Super flash swim in cypher on twisted into concentric appearance. So staying like swing in vast coil thence vanished in extreme infinite. Until devotion complete will carry. Candelings sure exist many times equivalent to tiny flares. So that encoloured in technicolour focus in beautiful illuminate. In certain deep night or concentrated mood in the cave of thick shade too brighted as halo. Although instant transgress of profound dark.

Suppose Engine of Rail train run fast with smoking. The fumigate net mix up in super coil. That shows black and greyish but possible to keep similarity with twine. As like this flares a little over in boundless era so that holy apex exiting chronologically. Therefore sometimes become slight on that chapter hence it remains lighter that's why bears play in the mental world. At any circumstances circulate mild glow. Indeed peaceful environment presence. This cradle also HIS part of excellency achievement. Thereby internal soul diving into joyful visit and soft tricky games carry on.

This time no cresting will be out. So that condensed once Psychological land must be enlightened

In spite of gentle dedication dangling very much. Hereby on the way of completion sure to be manifested in the structure with ray in the peace of bliss. Just on the factor nothing will keep in heart of worldly affairs. So what is going out side no tendency will perceive even in Physical sense all to be lost. There is nothing in the earth whatever strike on the same period. With pleasure Supreme of Love Link of VICTOR disappeared self existence in which soul also dived into ocean of excellence' spirit.

Therefore on sacred offerings the scientists devotees loose manly sense. What excellent satisfaction Can't expressable to none. Observing only innumerable warm and miraculous scenes media of supramental eyes so amazing plunged into glorious mood. Lighting except too many extraordinary stream decently flowing on which filled up in nice brightness. Hence sound of dripping water within come out of greater mental ground. How nice ! so many charming flowers bubble in boiling that is not possible to calculate. Those never blossom in the worldly soil so that permanent fragrance always enjoying over here. As petals of Parijat spread like flow of laughter. Hereby manifestation of excellent

Supreme flower as if pour out with scent in which intoxication awaken so far.

Since long age having no origin name of the Parijat sewn in the holy voice of saints. Wise people addressed the fine name full of evergreen and scented differentia. ONE creation of HIM there is no limit of naming so far. On the other hand the particular wreath decorated in the reign of semi-god Indra. Urvashi, Ramva and others dancing stars gave pleasure the king by tricky arts. There is the speciality how flavour tactfully overcome So Heavenly place technicoloured by beautiful excellency.

Perceiving of grand current observed in Vas globe wherever decent flowers dressed up within. Whatsoever variety in internal eyes saw different colour of blossoms. Many persons described in variegated ways, some others explained mental diet of inner ground. Are these not express in our look? Flowers not only in the place much more joyous scenes covered with the Vanity over them. As if soul feigning turn into Supremacy elegant blooms swim in the courtyard of fathomable heart.

The force of soul terminated. So on stratagem games sometimes flexibility peeps. If not express

out look thicken in heart thereby fine ray occult. Though beautiful part infacing mental diety sitting beside the grand flow. Thence conjurers or wise persons designated an extraordinary lovely of course on imagination. Certain are in confusion told her handsome Fairy or celestial female chorister. Spirit charmed to see her at finest possible feature. Therefore uniformly intend to nice visit.

With its' quite black globuler eyes by redish flames of attracting fingers catch bud indifferent ways in Supramental flower garden. Sometimes dance occasionally and dressed up with Parijat in golden braid of hair laughter in strolling mood. So being refracted gleam of Divine light illuminated gloriously. Thereby dressed up in various uniforms draw the visionic influence of internal spirit. Although all these are partial of innumerable dust play of the power supreme.

Whereas joyous to look at her gradual attraction which for on Super way calmness increase. Mind at first glance ask, who is this lovely female ? So evergreen lady Courtyard in luminous ! How unique enjoy and satisfaction perceived that is fruitful only for meeting of the bliss.

Just on pleasing calibre spirit look forward to

the favourite mental diety but can't catch. Therefore standing out of touch with dynamic notion hereby attract regularly. In this suitable chapter very difficult task to procrastinate for self' FORCE. INFINITE ONE playing everlasting so that no termination of it. Complete only in dangle but shouldn't halt abruptly to visit beauty near step on that's why must observe with deepest delightful situation. Hence Glorious diamond mines filled up wherein.

As to find out the scorch of crystal stop over here so that gain and goal must be lost. In any way not to cease. Imaginary deity should be driven out of sight like magically. So on the ground of meditation she or fairy stroll since everlasting period. Although no capacity of her at all to march in Supramental globe. There is the palace of achievement for VICTOR Divine. That is the only pleasant place in full devotion it is surely calculated.

Suppose lot pieces of glass if collected that will be seemed far from the dangle of diamonds fallen in scattered way thereof. People sit down to mark the false thought hence no possible to reach the excellent mines. The precious jewell can't obtain so near. Therefore too much self sacrifice essential.

Sure deepest concentration required to realize HIM. Until discovery of the Supernatural hollow not to be illuminated in any means ! There are so many more glimmerings allurements sprinkled heither and vacillate position. Thence no truth saw within merely actual curiosity would have to be riddled up with illusive coating so far.

Fay become most finer in bright light yet spirit shouldn't be charmed at all to gaze at, so positively look forward dynamically flap upwards glaring VICTOR. Certain advancement noticed on progressive link in which the fairies just to change their appearance of ballats in multifarious nature of erroneous play show. For which downfall comeforth from the upper link.

Any temptation may phenomenon but not to be drawn tendril of any kinds. Without surrender complete there is no chance to escape from all the buggaries. Therefore must have to be confirmed in steadiness because serious crucial test goes on. So cause of over throw brought the loose of vigour altold from upper lift where devoted himself living in very lonely environment.

Origin after birth have to detain for fulfilment. Without body soul alone can not be perfectioned. In active ground is to strongly concentrate media of

the human structure. Except beget no other alternative method to be workful hence through the creation of divided entity obtaining complete devotion hereby live with contentment in vast mental position. So nice splendour that will be happened in higher link than ordinary stratification.

Dust pollen all finish in lower prostrate, how excellent achievement ! Whenever intends can't apply Force. Therefore never break regulations of pretty creations. Time is so great factor so long filled up sufferings of duration gives the pleasure to soul absolutely. That is the only place in Super elegant globe, no trouble nothing crucial over there at all. Whatever look through internal eyes never disappear gradually neither like a slice of glass.

Suppose jewel costly denomination thereby bring hankerings, similarly particular psychic land subject of desire in every respects. Why doing so games that is beyond the calculation of normal sense. Where is the start and end that too out of justification for the persons. How lovely gleam enlightened from the sanctity of LORD thus soul turn into brilliancy in Vertex of Supramental ground.

First touch enjoy entire satisfaction then advance forward to catch fairy just to mind forceful

deity but step a little misunderstandings. Therefore marking Divine light move on the way of Supremacy. VICTOR also leaving His device play mixing up glorious phenomenon to reach upper link hence crossing the stage after so many chapters.

It is very transparent and expressive blaze so that imaginary female can't ascend over here as well unable to draw notice of internal part. By evolution only gratified too much in dedication completely. Therefore innumerable types of colourings like rainbow indicates clear and points of ray always glistening. So just in the period of development no tendency will peep at all. That's why flow of pleasing current translucently.

Nice gleam cradle in fresh technique of lustrous feelings in tremble of selves' meeting. On trance how many apex refract can not imaginable at all. Whereas in the particular moment feature become gracious in extraordinancy beauty. So the persons who advanced to the remarkable glossy line could realize gleaming like thunder of black redish cloud for brandish in the holy skin.

In deep condensed position if tendriled many more remarkable will be found. Therefore clarified

dangling linger on and manifest top to bottom. Just take an example of glow worms in dark night which throbbing slightly thence disappeared till existence for a while looks finer and gleamy. Similar of fire flies too illuminated in evident course who got plenty of farsightedness as well as grandeur brilliant.

How lovely ! question of self' realization arise in the matter. Simply sheltering in the structure many miraculous actions move on serious way, on the other hand in strange performing focused to outlook. That is not at all divulging but perceivings of unspeakable peace. So that physical eyes close down hereby body will become motionless by hammock of unseen romance. In way it is sure full of innumerable amiableness which printed permanently in the Psychic mirror.

Round flash at any time refracts like formation of sacred trinitarian. Therefore on burning circumstance this holy symbol besiege the soul. In way combination of superiority changed into forceful vast origin of the trinity. It is countless visible sign. Hence keep it within the spirit of sweet affection. So many times extinct after flaring just to expansion of vanish and presence, Ray of super

excellent so beautiful never wish to turn up mind merely observe the splendour action of fire-fly which disappeared in dark showing dim effulgence.

Living thought awake till illuminate in swimming condition in which airy fragrance blown. This special supramental scent staying for a while stored in Mother Divine. Hence the holy container filled up since having no origin neither in endless chapter. Hereby lot of these can't be countable. Only VICTOR Supreme circulating from His self' thus enjoy too much.

Not only Parijat or Lotus of the receiver differentia between worldly flowers as rose, tuberose, Arabian jasmine etc. too flavouring sweetness. Though very pleasant concentrated atmosphere therefore excellent influence of peace. So gracious where devotee in doctrine of deep abstract meditation so fine scent spread over in certain areas whichever nicely dived and lost almost in outer tendency. Hence being dedicated how enjoy feels doesn't wishing to return in any Global subjects.

Just to collect nectar of intoxication for conjuncture soul become absorbed. That's why odour of best blossom of plain land perceive but without plants. There are no trees hereabout under notice

in spite of brandish for loveliness. In the particular factor presence of persons even unable to realize wherefrom scent blowing except surrendered devotee. So on internal Globe developed in decent dangle. Be fascinated who distributed dish of fondness. Deposited none plucked neither so that astonished but reason can not guess at all. Supreme Land until brighter in dazzling no alternative for any understandings.

Whereas crossing the special chapter odour come out of being pleasant. This is not worldly at all no fermentation must get in spite of travel over the manly Globes. Therefore on fulfilment of the container realize in crestings. No finishing of it nay maddening of love deposited in developed receiver. Not merely one world in stupendous existence of ideals herein much more grand Land too observe. Although visit nothing sure applying of Super len many handsome greenish plants shows in supposition. So nice variegated in one sense ascending from superior link create the scent of surging. Beside flowers fruits' perfume also circulated over there. The place actually precious wealth of LORD lovely. Hereby sweetness of concord delicate soul enjoy a decency.

Mean while perceived like fresh pine apple, ripe

mangoes as well extraordinary fragrance through the ethereal vibration. Nearest people surprised in self-abnegating mood hence without condensed scientists even or new persons on the way too can't get merry. Where holy sacrificer live benediction of very fine level altogether absence for some duration of the space still enraptured. So that at first perception seems Physical substance lying over here for which speciality blown. As far possible come near mark nothing of the sort strange and become very charmed to comfort for unseen elegances.

By feigning sacred brightness and gradual essence of expansion omnipresence. That is manifested medium of contentation. Therefore particularly for the reason necessary of the human body. That's why apex and fragrance pant like electric current anything similar to swing up. Hereby the attraction of VICTOR can not run far only equilibrium in a fixed place but momentary for oscillation.

Ether guessed as lighter waves in angle of sight for inanimate scientists. The whole Globe place of wandering no steady in one point at all. So restless whim-like water of ocean. Any way can not stand with firm just dancing similar to hanging bed. Particularly with the unseen material unbreakable

relationship strengthen in doctrine of abstraction. In which by contact of Divine Force thickened. Only pressure of concentrated subtile fluid odour and swing in remarkable atmosphere of internal situation.

Upper wind subsided so that silence perceived. Therefore for the higher lift waves in air become mild. Hence scent of gardenia can not be vacant. Hereby Physique could live in common place but no alteration of essence occurs. Therby on transformation sandal pasted atmosphere must have to be circulated. In spite of absence in self conscious person till begin to scatter in vibration thus sweetness of smell must have to be continued in slow progress. If not for all time step by step must be enjoyed.

General people also accomplished in satisfaction. With the handsome effect inspired newly in his kingdom of mind. He too desiring to feel elegant feigning like self concentrated devotee. Hence gradual evolution tearing for psychic situation that become pleasant in search of modern method.

In hill area as cold wind extension from plain to high altitude. Wherein liquid substance from the cloud changing in snow thereby accumulate.

in earth and progress on conveyance of persons close down. Herein the unique chapter of whims for universal nature till chilly flow of snow fall must have to be occurred. So on mixed up with cold air condensed sure aloft to certain days, there no sign of melting by no means, how fun !

By primordial calamity hardened in Himalayan freeze being sober nature dressed up in separate forms. Whence start hot a little bit turning into water and spread over the earth. So mankind enjoy to drink holy water. In way constituent part moistened awaken serenity.

Say-atmosphere stand still so that sweetness of VICTOR accumulated like snow. Therefore concentrated person could have to live there thus circulate must amazing smell. So by commotion of upper air pausely spray near by. Until influence of devotion thickened adjacent persons sure enjoy that miraculous vibration. Only by natural whims change the climate and thought looks thinner. More over being slender fling about in the Globe.

The dexterity not only move alone properly mix up with the atomic energy hereby the reason create agitation among the kingdom of human being. Thereby understanding of restrainer may take

shelter although not for all at a time. In this circumstance on evolution certain concentrated figure by applying super beautiful strength can form the worldly happiness. Hereinafter Infinite ONE achieving the dynamic current medium of countless figures. There is no limit of timings so nice transformation-as well as-Divine influence to the people.

Since having no origin for the benefit of universal distributing fresh taste of excellent Land which accumulating Super Force. Besides all votaries abluted in Supreme stage hereby stirring in store sacred wisdom that vast flow too comes forth the ground level. So energetic Power could hoard continuation of the same, sure be able to deliver wherever likes according to volition. Though people any where holy receiver keep ready and clean for acceptance the grand power therein must be changing the psychological reign.

As cockle always remain open with trim heart in deep sea for the birth of valuable pearl as we clean minded people wait for super benediction in ethereal ocean internally otherwise must have to be oppressed. So on mental door uniformly should keep free without obstruct not to close down in any way Thereby sober of Psychic development progress

rapidly in this method. will-force doesn't act at any time in spite of tendency for abstractor. In final expanded and fine smell sprinkle about.

With complete conjuncture the remarkable whim descend to the ground thus swing cot actually be very forceful. Neither can not wait in certain point nor externally thicken at the moment. Hereby creating marvelous movement fling about the world and mixing in atomic energy. So according to extraordinary incident influence form in interfacing ground for the time being. Though unclean minded by vigour of abstraction dust sure to be exited. He—who realized only the wonderful dynamic centripetal might. How nice amazing subject ! The serious diseases which can not recover the physicians that also easily radically cure by applying excellent flow.

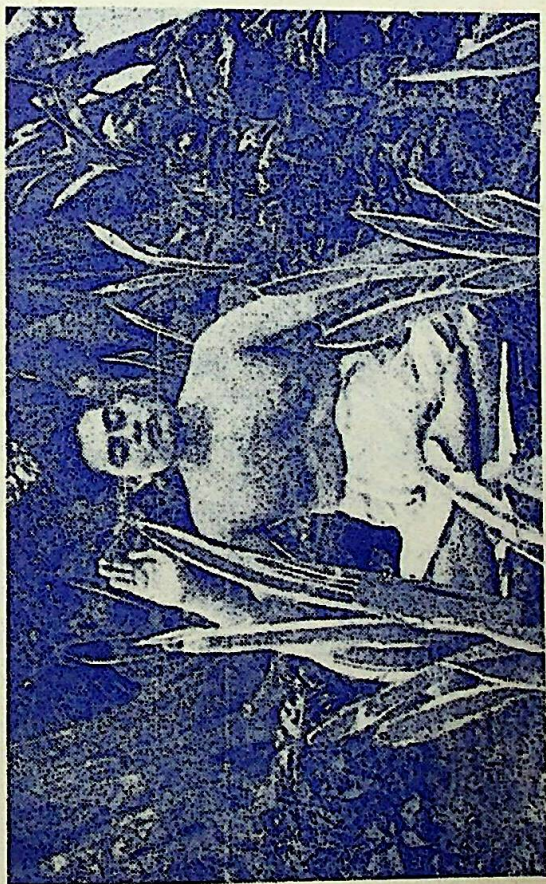

There are much more examples do put it many people already benefitted and up to day also occurring like this. Personally on componendo can not do anything only through feigning victor forceswing up hence some scientific method lies in it surely hereby controlling tactics and graps from high level thence charge to the diseased. If sickly man stay near to him therein too power of conjuncture may act. In this process they perceive new conscious. The Patient

live at any distance distinguish blessings could enter at ease medium of vibration.

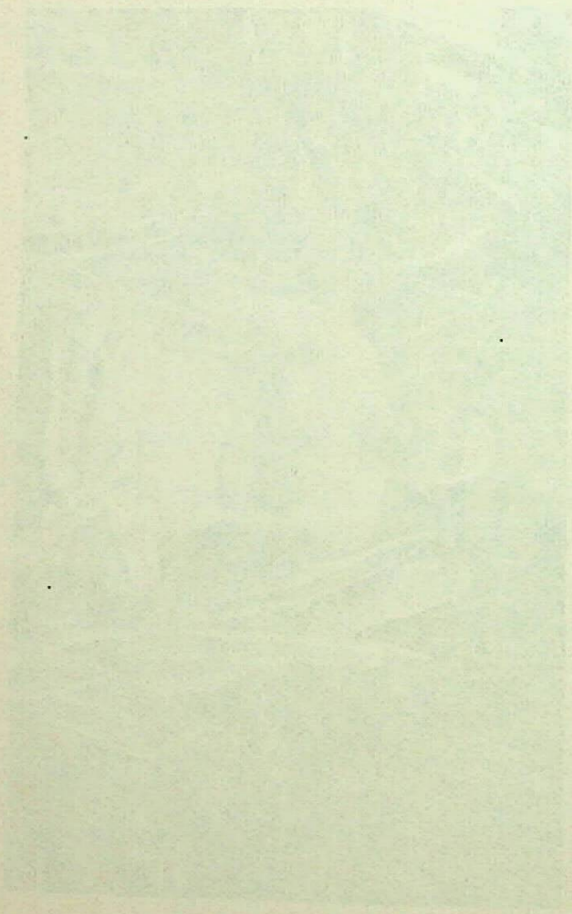

It is beyond the realization of general mass sense that can not judge in Physical sight but application must be fruitful. Psychic screen covering with vanity therefore no sensation of wakeful presence. These super benediction should have to put very carefully because if self do with pride then other's suffering re-enforce to direct himself it is so amazing subject. As benefit the mankind on the other hand without knowing technique of apply may be worse even.

Willingly or greed of certain domestic desire shouldn't waste the splendid power which gained since long time dedication. Although sufferers with wholeheartedly according to similarity of the Physique could ascend the Divinely strength. Thereinafter he must get entire grand peace. So couldn't fail if receiver weaken on those case by supporting devotee's link taking touch of excellency mingle in atom only. So that circulation of air form billow and turn to be good enough to disheartened men.

General human consider concentrated person super man or representative of God. All the people of Globe sent by Him but in particular sense possess magnetic speciality. Hereby potency of fine action

ordinary man can be changed into superior quality. Tenderly LORD not responsible for the cause. Due to own' dirty works being worst endurer take re-birth several times in the earth. Few got strength for the force of conjuncture that's why in order of formation for uncommon calibre. Those are nothing but specific Pagoda of Supergreen land. There found no difference in brick made temple. As a whole in the sacred mental cot of worship the blossom Parijat and Lotus. Whatsoever taking transmigration being sacrificed make up rest works of previous lives. For which that man of sanctity effaced in LORDSHIP for everlasting period.

Rare holy soul come unto down world that is only for focusing harbinger light. According to willing of Divine self' they do not get so called earth bound peace such as no family happiness neither Physical wealth. Naturally sufferings are their distinction of lives. Lot rumour, sorrow misunderstandings are resolute companions for them. Though from the people obtain these dishonour because can not realize what kind of deep thinking progress on. Joke even point out mad and so on others. If they try to leave manly Land that also be disturbed as super representation came to the ground till completion of necessary works directed by His excellency to live

for VICTOR place. What surprising order have to adhere ! That is out of imagination for the usual calibres.

Messengers personalities alight to the lower Land since having no origin and heed the creation will be linger on their appearances must have to be occurred. He doesn't focus to the mass with unspeakable beauty so that carrying distinguish feature gratified domestic achievements. So exquisitely beautiful that is beyond confusion. Enjoy merely superiors of pure minded just to link with container of merged in the soul Divine. Look forward unparallel lovely dedication become deeper such condition arise that consecutive days take time to return in animation.

His entire visit for consciousness and felicity not possible because countless features. Hence Vertex of top level also innumerable. There is no compare may be with anything. All one must have to turn in this way. According to factorise of time sure to be manifested on evolution. So partial presence in every lives but have to offer as complete oblation. In one birth succeed may or may not be perverse by metamorphosed of so many regenerations must be accomplished. It is sure evident once media of each human.

As bird incubate the eggs, whole mental points engaged in incubation merely external behold in name. Similarly conjurers heart too always punged into VICTORLY palace—resolute concentrated clearly shows—eyes vacant innerfacing.

It is quite impossible to develop in single birth. There are gatherings of countless people but appearance not same types. Dealings also indicates differentia. Some ugly, jealous, diseased others passionate and Divinely. Those are individual calibre come on gradual hermit. Besides beautiful figures also marking. Uglies once too will turn in decent impassioned. They must perceive super excellency on cyclic order, it is sure. After so many transmigrations close up circumstance ought to be occurred. Just to fulfil achievement more extraordinary persons created in the Globe that is out of calculation in human understandings. God deliver universal message intervening of the Superfluous personalities for the cause of nice Phenomenon.

Nothing clash in the earth which encradle by sacred conjuncture between Supreme and distinguish soul indicates deeper swing. So that in the Physique strength blowing. Thus every moment visit place of sanctity and soothing breeze like air conditioned room.

Occasionally approve cyclonic current pass. LORD'S celestial appearance floated seldom in it. Solemn Himalayan freeze enjoy within. Flow of this excellent sweetness nothing but running stream from Super part. Herein too uncommon man drowsy in satisfaction.

Materialistic scientists of to day built up handsome dwelling to restraint air just to escape hot weather. It will be seen in Physical lens containing one electrical equipment set; exactly dominating aerial power cold waves circulate in certain area. Many more realized in open eyes this condition of modern age. So splendid in terrific hot like semi desert would enjoy cooling. Similar in snowy winter could supply warm current for pleasant.

This is wonderful discovery of the elemental science. Although Supreme keep in wisdom of store in heart for kingdom. Which in search of modernised expression, physically instrumental work though occur, that is calculating gradual development. As for instance where ascetics live long days by tenderly attraction superiority of feelings quite gladdening like air conditioned room. So vast process of evolution wouldn't be successful by the scientific apparatus.

For it's organic perception sense applying. now

mal technique from excellent place can direct cold brandish. Just controlling mental flight push easily like electrical current. So peculiar Force can not realize Physically. When conjurer being condensed lost domestic knowledge at the time of factor if any one touch sacred body must perceive circulation how nice evident through him too. Henceforth level of tangent in this position internal sufferings or different kinds of diseases may be recovered. So that falling from thinly place passing similarly media of the earthly virbration.

By holy affection unsatisfied heart enjoy peace creating agitation. Therefore evolution march forward on the way of sanctity. It is very difficult to trace out such an extraordinary man of top calibre. Since—they got no outer pharse and as well doesn't give understandings though move among the general mass. Any way can not be powerful at all through external helping. Nay repugnant in any further in spite of dwelling among the children and family as usual in deep night being invocationed fill up true wisdom in basin. These are entire developed by harder penace. Few persons also proceed in very lonely place avoiding noisy environment. In conclusion the said period sure to be quite and calm.

Although there is nothing speciality of worship to run in forest. Succeeding to dense jungle, snowy

mountain cave all belongs to LORD and crowd city also creation of HIM. Just see sacred Ganges flowing over the ground and jingling in sweet tune. No tendency in any sight, countless people living of both the banks according to the convenience they use water. River same but bathing place separate. So there is nothing markable what is going on the link in conjuncture. Ambition only to gain wisdom that is evolved with lovely Divine. Herewith the holy connection of internal Globe Vertex of knowledge fall on. Hence outshow doesn't bring Power of discrimination except the crown of hypocrisy.

These type of Super man like to avoid the disturbing elements. So none know their time of concentration therefore no chance to enjoy the corporal current. If himself wanted to offer ambrosia other must be thankful to get holy amazing touch. Hereby embracing benediction of LORD put to the distinct soul. So willingly shouldn't force because self importance increase Just to show credit means misusing the power. Divine self remain aloof for the time being. Hence by special circulation exchange the sufferings of diverse that's why found almost extraordinary personality spend the last chapter with material trouble. No good effect even apply costly remedies.

By whom sweet intoxication developed without blessings of Power performance—flown with brandish of ether. So that shouldn't waste in this way. Divine jewel obtained after harder struggling of offerings. In spite of peoples' earnest request must have to be refused strongly. Although it is nothing but swim of evolutionery vertex. So finer dangled very easily could recognise the particular man as individual among the millions of persons. So there lies grand differentia in his general movements. Suppose dark in deep light of apex mild spray can not hide in any way. Men must be seen. Herein also to fulfil many more organic activities by the help of tiny lighting. Therefore neglected nothing in the creation.

When distinguishing mark occurs he should live in disguise otherwise selfish people for individual interest reach to disturb. Now he is very rich in vast supramental wealth therefore so called men firstly appear hypocritically showing goodness secondly plunged themselves in the name of lower rank demands. Apparently seems purpose successful but after any time untrust will be gloomed from the parties. Hence repeatedly usage FORCE become strengthless for which eagerness increase very deeply to regain the lost energy. Peoples' inferior

thinking observe VICTOR from the Higher most Globe.

So far as possible be corroborate vigorously in the link of conjuncture. Due to egoism blind people fall if fail to fill up desire abuse and rumour spread in different ways. Although it is nothing but a great trial for him. If require to put dynamic occult praying must have to be done. Excellency' willingly doesn't spray light. Hence come only unto the link of conjurer and sufferings of evil effects re-power in super person.

Since creation message uttered—'all surrender complete to myself'. Shelter take to merged in the eternal soul. Hence do not hurry, nothing will be gained in this process attainment of the craving result must be scattered. "World mine-insects, birds-beasts, water, land whatever finding each and every created by miraculous phenomenal emanation. Where going—he too my formation. I given his knowledge you also mine thy whims of ignorance that even awarded by me. In spite of that where you move? The celestial shadow every where omnipresence. That is true fact."

By capturing super Physique since having no origin energy apexing in dazzle of light. On mani-

festation open farsightedness therefore just disappearing imaginary cloud insensible land seen. This call vow or supreme vision, so beautiful place can not be expressable--LORD print it spotlessly with holy painting brush. Observed all these due to long view and got satisfaction. When brightened in ONE greater ray found without fail.

As first rising Sun ray in the Eastern sky with manifesting lustre gradually glistening more and spread over the universal nature. Hence from Solar to manly Globe too long distance. People of the Earth spend in dark if not reflect beam then wouldn't be chance at all for expansion of mankind. So strong halo visiting every day in spite of long ways taking not much time to spray pervade.

There is one greatest power entrusted in the Sun. The whole link entire of vertex thus concentrated One point forming lengthy light crossing the cloud thereby circulate comprehensive the world. That's why agitation awake in the ground humen and creatures appeared just to search of fresh illuminate. If would have to dark permanently never inspired in the mirror of humans' mind. Whatever shining radiant refracts so cries of stir up !

On the path of replete conjuncture the crest

focus like Sun ray. There is no stronger firing power in it. In first appearance lustrous Sun looks very pleasant then slowly advancing increased heat. Hereby mild form just in the period of dark-twilight in western Zone flaming red rage in the evening and plunged into limitless horizon. So that no burning sensation in contemplating link on the other hand entire everbeautiful peace presence.

Every one amaze to look at brilliant Sun of the East. Same condition exist in all mental Globe so that glimmering like ray seen in dangle of inner sight thereby wonderful beam oftenly apperanted in Physical eyes. So we can not keep perpetual in psychical reign in spite of it's miraculous action perceive.

The Higher path of apex found supramentally. Ye search light discovery of the scientists. This type of splendour used in Railway engine, ship or steamers. All persons observe the glistening of the same in dark night from long distance. Though from electrical equipment one condensed point dangling of focus hereby clear the passage easily which accessible for the apparatus. Captain and driver march forward following the spray. Herein-after on the way of Supreme link similar unique flash marked through the Psychic lens.

How unlimited horizon spread out that lovely flames where is the boundary that is beyond calculation. Mechanically driven by the big ships, passengers and their valueable goods carry to different countries but necessary of operator sure. That's call too charioteer. Same figure of the vehicles' unable to move in the gloom. So that too much requirements of search light as elongate distant focus extended. By the help of it found the vast perplexities so this kind of scientific brightness got no visible sign of certain area neither reflect in endless immense.

Within the clear surrounding or standing position far in dark come in notice undisturbed atmosphere. Driver switch on founded only lighted circle with vacant eyes. People stand still if necessary by the help of lamping can move without difficulties. As an example traveller of gloom doesn't see the conductor but focus shows correct direction. So far torch carry some one can't clarify his feature footing remote in dark.

Why torch twinkling ? Every Physique contain sleepy Force since everlasting period. So realized conjurer pure thought thus bring gladness on the way of evolution for general mass. Therefore superman concentrated to see thicken crest. His corpo-

real sense disappear totally. Just to carry one body various Divine strength manifest which can not justify from the particular path to turn in one technicolour form.

Suppose telescope too invention of scientists. By the help of it very small to tiny substance marked properly. Movements of the instrumental lens could be vindicated. Hence to centreing it intellectuals may advance at ease on adoration. For which he can overwhelmed with joy invent new one to others systematically. The transcendental learned or conjurer by closing eyes through mental view perceive the result or hard devotion even more smallest unmentionable dust whatever doesn't clarify in telescopic vision.

Medium of the equipment materialists can see easily what is happening within thousand miles upper distance or lengthy horizon whereas in open eyes looks only a little far. Several miles area not enough out of the location there are so many substance existed. Science of to day also trying to bring in talent but no finishing struggles of it. Since having vast period they are under research so that resolutely busy in expedition of new discoveries. Therefore boast of thyself possess stores for knowledge, sorry no end of it.

Universal gift circulated as ever so there is nothing miseries in it, satisfactory distribution for the benefit of mankind hence no limit of desires. Unsatisfied thirst one after another inventing but having no pleasure at all. Neither fulfilment nor enjoyment thereby equipmental lens going far but some what existed out of capacity due to inability can not enter into that particular line. How possible to calculate the boundaries of unlimited era which having no origin.

Esoteric personalities controlling of mental kingdom Globe after supramental worlds might be seen at ease. By evolution ray of glow behold within a moment thereby applying conjuncturing lens substance of any lengthy distance can observe without difficulties. He need not run like mad in super meditation, moreover no require of instrumental touching. Hereinafter no question arise for demands.

That is the sacred psychic temple in which so miraculons incidents occuring. Therefore become lovely in twinkling hence no electric light neither lamp necessary there. The haloish ray of Supreme Land enlightened the individual midst. There is no compare between the materialistic scientists' mecha-

nical lens and amazing of metaphysics' comprehensive sight.

Look here—so Vast and famous genius Instine of modern age, how scrutinised research done through out life long by which invented the precious articles and happily distributed among the mankind. His excellency told in last part of emancipation—applying instrumental lens focused up to long far that was not sufficient distance. Just crossing view felt ring of something thereby transgression overcome the few chapters so on stopped, no more advanced, perceived only but couldn't guess what was that mild knocking hereby charmed to review the grandeur unseen power.

Jingle of sound how long from knocked that was not possible to calculate. So nice ! a kind of strange beam found off and on. What telescopic ray observed it was most different from others. Look forward dived in super pleasure. Hereby life long research for materials Comprehensive Knowledge dined in Comparison of apex Very elegant unseen Land.

Where from flash focused, who was controller of the same couldn't understand ! So that agitated in his mental Kingdom, who is that eternal FORCE ? Decent unmatched rein how reached from unknown

place that was out of mundane imagination. He thought certain Super fine power playing tricks. Instrumental view couldn't get at there neither possible at all. The human strength and mechanical capacity defeated already thither. Hereinater eminent Instine bent down with deep regard to miracle energy. Therefore sensation returned in last life towards mystic Knowledge in comparison of long cherished learnings. In this condition he realized a little bit. The subject is so most unique and grand gistful.

Actual conjurers obtaining vision of extraordinary gleam since having no origin by hard dedication. He congratulated to ancient Indian sages. Land of salvation ! that's why by order of flow when misfortune appears to special man sure fall on. Until factorise of time Mother Divine kept them in shadow of delicate arms. Great Instine of twentieth century amazed to find out the miraculous excellent eyelash. Accurately white lens nothing but vertex of human globe. Hereby atomic energy of vast ethereal periphery observed.

People collected so many valueable wealth from energy. Whatsoever invented all from the reign of Supreme in spite of that, no contentment at all.

The contemplative saint sitting in one spot any where in Globe happily rove with ether body to unseen place after places without any obstacle. That is the individuality of conjuncture. Due to self importance' persons can not realize the focus of greater Force. So that moving curtain showing a little dangle, let be restless in strange phenomenon.

Grand scholar Instine fascinated to saw super beam of light. Whatever perceived that was very nominal. If entire adherence forget external conscious could find sure gleam of Divine vertex. Hence during the holy unknown moment initiate feigning that's why moving screen of inner eyes become unspeakable joyous thereby looked glow. In next elegant chapter almost the period spent in deep concentrating mood.

Particularly the sacred body changed into full of different fragrance even otto scented raisin issue in breathing and circulate through ethereal atmosphere. If splendid occurs must have to be evolved. Patience required, be attentive very carefully there will be no chance to downfall in the gross.

X'ray applying in medical science. When exterior and instrumental test failure to diagnose the

internal disease picturised by line of light. The holy abstractor can visualise the defect. Medium of supramental lens within a few minutes but should know the process of technique. Except special necessary not to put because it may looser excellent strength. Be good to the mankind there would be arise no question of nationality nor personality. Beyond attachment call pure love. If presence a little disturbances must appear to aloft therefore not in the least to be indulged mentally. Hence affinity peeps only for LORD except else none.

Doctrine of illusion amateur philosophical essence showing in vain in one sense pedantry so shouldn't debate uselessly. However agitation form and genuine thought scattered. Always observe politeness thereby must have to be developed. Reader amateur means unauthentic Philosopher.
